

Leaders in the field of Engineering Plastics.

Kumbhojkar® Plastic Moulders pioneers in the field of Industrial Engineering Plastics in Pune City, Maharashtra state (INDIA) since 1968. We have vast experience and expertise of Designing, Developing & Manufacturing Precision Plastic Moulded products. We specialise in design & manufacture of a wide range of Innovative Plastic Products like Cable Carrier Assembly, Cable Drag Chains, Pendant Control Station, Plastic Flexible Coolant Pipe, Chain & Standpoles, Nylocking Rings, Multi-directional Wheels & Gravity Rollers, etc. which are manufactured for the first time in India. Our Product Range meets the international standards of quality & utility. These Innovative Engineering Plastic Products are used widely by our customers all over India. Some of our products are Design Registered.

Cable Carrier Assembly (Winner of Plasticon & Plastivision Arabia Award)

Drag Chain/Cable Carrier System

Pendant Control Station

Pendant Buttons

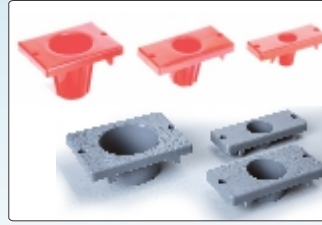

Awards & Appreciation

Plastic Flexible Coolant Pipes

Efficient - Elegant - Economical. Introduced for the first time in India in 1986. Awarded industrial merit prize by MCCA.

Plastic Tool Pockets

Systematic & Vertical storage of Tool Holders for both BT & HSK tapers.

Knobs

Varied range with studs/inserts/ types in Bakelite / Polyamide / Acetate material.

Handles

Bakelite / Plastic moulded Handles and Wheels with Studs/ Inserts/Bush. Wide range available.

Plastic Chain & Standpoles

Useful for demarcation, partition and fencing, now made most convenient, most attractive and most economical.

Nylocking Rings

Best Nylocking substitute for nylocking nuts. Much cheaper than nylocking nuts.

Aids To Material Handling

Aids to material handling systems like slat conveyors links, gravity rollers and multi-directional wheels.

Mini Rail System

Unique system to handle light & medium weight packages.
